Farmer Management of Groundwater Irrigation in Asia

Selected Papers from a South Asian Regional Workshop

Editors:
M. D. C. Abhayaratna
D. Vermillion
S. Johnson
C. Perry
## Contents

### Preface
Preface .......................................................................................................................... vii

### Acknowledgements
Acknowledgements ....................................................................................................... ix

### Overview
Overview of Workshop Activities, Issues and Recommendations
*R. Sakhivadivel, D. Parker and S. Manor* ................................................................. 3

### Resource Development and Use

- **Hydrogeological Potentiality of Intensive Farmer-Managed Tubewell Irrigation Systems in Bangladesh: A Case Study**
  *M. A. Sattar and K. A. Haq* ................................................................................. 15

- **Farmer-Managed Irrigation Systems and Sustainable Groundwater Management: An Endeavor of Proshika Target Groups to Ensure Sustainability of Groundwater Management**
  *S. C. Sarkar* ........................................................................................................... 29

- **Sustainability of Farmer-Managed Groundwater Irrigation Systems in Drought-Prone Areas: The Role of Socioeconomic Conditions**
  *M. Venkata Reddy* ................................................................................................. 37

- **Parameters of Doubt: Prospects for Groundwater Assessment to Help Farmers in Hard Rock Areas of South India**
  *Linden Vincent* ....................................................................................................... 47

- **Groundwater and Electricity Co-Management: Generating New Options**
  *Marcus Moench* ..................................................................................................... 55

- **Utilization of Groundwater Resources in North-Western Sri Lanka: Some Issues Pertaining to Sustainable Development**
  *M. D. C. Abhayaratna* .......................................................................................... 65

- **Sustainable Groundwater Development and Management in Nepal: Major Issues Confronted by a Development Bank in Nepal**
  *Ujjwal Pradhan and Ganesh Thapa* ................................................................... 75

### System Management and Performance

- **Sustainability of Groundwater Farmer-Managed Irrigation Systems**
  *Manuel Olin* ............................................................................................................ 87
Utilization of Water under Different Deep Tubewell Management Systems in the Rajshahi Area of Bangladesh  
M. N. Hassan and M. N. Islam

Minor Irrigation Development: A Key for Sustainable Agricultural Development in Bangladesh  
M. A. Ghani and S. A. Rana

Case Study of Management of Three Deep Tubewells in Tangail, Bangladesh  
M. H. Rashid, M. A. K. Mridha and Ian K. Smout

Experience of Community-Managed Tubewells in the Command of a Surface Irrigation Project  
T. Prasad Anand Verden, K. S. Sinha and A. K. Verma

Community Sprinkler System in Sullikere Village, Bangalore Urban District, South India  
D. S. K. Rao

Sustainability of Water Users’ Associations as Groundwater Irrigation Managers: A Case Study under On-Farm Water Management, Punjab, Pakistan  
Muhstaq Ahmad Gill

Comparative Assessment of Farmer-Managed and Agency-Managed Groundwater Irrigation Schemes in Nepal  
N. Ansari

Capabilities of Water Users’ Associations in Managing Groundwater Pump Irrigation: A Case Study from East Java, Indonesia  
Agus Pakpahan and Sumaryanto

Farmer-Managed Pump Irrigation Systems: A Case Study of Guimba-Cuyapo Network in the Philippines  
Vicente S. Flores and Avelino M. Mejia

Development of Groundwater Resources and Farmer-Managed Irrigation Wells in Shandong Province, China  
Sun Fu Wen

List of Workshop Participants
